

Hi my name is Susan Wratten and I live in Grafton

I have worked with children for many years now through Centre base care and now family daycare.

I provide a safe, happy an educational environment for your children. We have many activities to keep your child busy an involved with inside play and our large outside area.

I program activities for children to keep them interested and learn through play. Water. Sand, clay, and play dough are some of the sensory activities we provide.

I encourage healthy eating for children in care and introduce new foods to try and grow in our small hands on garden, music is a big part of our weekly care as well ,music from popular children's artists and different cultures.

Working with the family's I can provide the care you are looking for. I look forward to meeting new family's and I have an open door policy for parents/carers any time.

My daycare hours are Monday till Thursday 8 am / 5 pm .cheers Sue Wratten
